› the Class of 1990:

This year will be remembered for the renewed faith, freedom, peace, and hope that is being experienced throughout the world. As the Ber- wall comes down, we see radical reform in the socialist countries of Europe. For over forty years, the world had known only a grim and ‹less peace; but now, we see signs of a warmer, hopeful, and lasting peace

You are living history at a time in which change comes and challenges each one of us. Many new opportunities will continue to unveil :mselves and we will all be part of shaping this new and exciting era

The future is promising and challenging. My best wishes to you as you leave high school and begin a new life in a world that offers genuine pe, freedom, and peace.

MN High Ceiling Buckled

Marple Newtown District Superintendent Stephen G. Frederick last week said the district has contacted private agencies to look into what could have caused a ceiling to buckle in the lobby area of the senior high school gymnasium.

He said the area surrounding the 20-foot length of ceiling is safe, but has been blocked off as a precaution and to allow a complete review to take place without disturbance. He said he will report on the findings of the investigation when the school board meets in January.

Sexual Harassment

MN Adopts Policy

By Bette Alburger

The Marple Newtown School Board on Monday unanimously adopted a district policy against sexual harassment in the work place, as well as a policy to provide a drug-free work place.

While providing an environment conducive to education, the policy forbidding any form of sexual harassment also protects the district against liability. It states that the district will not tolerate any verbal or physical behavior by administrators, supervisors, fa-

culty, staff, employees or students which constitutes sexual harassment of another person. The policy defines "sexual harassment," outlines complaint procedures and spells out sanctions imposed upon offenders.

The policy to provide a drug-free work place makes it unlawful for any person to manufacture, distribute, dispense, possess or use any controlled substance, as defined in the Federal Controlled Substance Act, in school district buildings, grounds or other school premises, or in any school-owned or approved vehicle, or during any off-campus activity where students are under the jurisdiction of the district.

The policy requires employees to abide by its terms and to notify an immediate supervisor within five days of any federal or state criminal drug statute conviction or of any violations occurring in the work place. It

[illegible] consequences for violating the policy and authorizes district superintendent Stephen G. Frederick to post the policy in all school buildings and to provide a copy to any person

"This is the time to remember" . . . "these are the days to hold onto" The Class of 1990 has many memories to cherish - the Senior Class trip, Grease, the Variety shows, to name a few. We have shared laughs and tears and have grown up together. We will hold onto the memories of learning about life together.

Good-bye and good luck Class of 1990. See you at the reunions!
